

## mobile trommel screens MPB 18.47

The Pronar MPB 18.47 and MPB 18.47g trommel screens are addressed to small and medium-sized companies dealing with widely understood recycling. The 4.7 m long and 1.8 m diameter screening drum enables efficient and accurate screening. The CAT 2.8 engine allows for smooth operation without the need for frequent refueling. The list of additional equipment also includes an electric motor. Thanks to it, the costs of current operation and periodic inspections can be significantly reduced. The version with a tracked chassis provides unparalleled convenience in moving the machine during operation.

### KEY FEATURES & BENEFITS

- | the possibility of hauling the machine on the road without additional permits
- | tracked version available
- | easy service access
- | performance tailored to the needs of small and medium-sized companies
- | short set-up time and the „Autostart” function
- | compatibility with drums of selected manufacturers

## TECHNICAL DATA

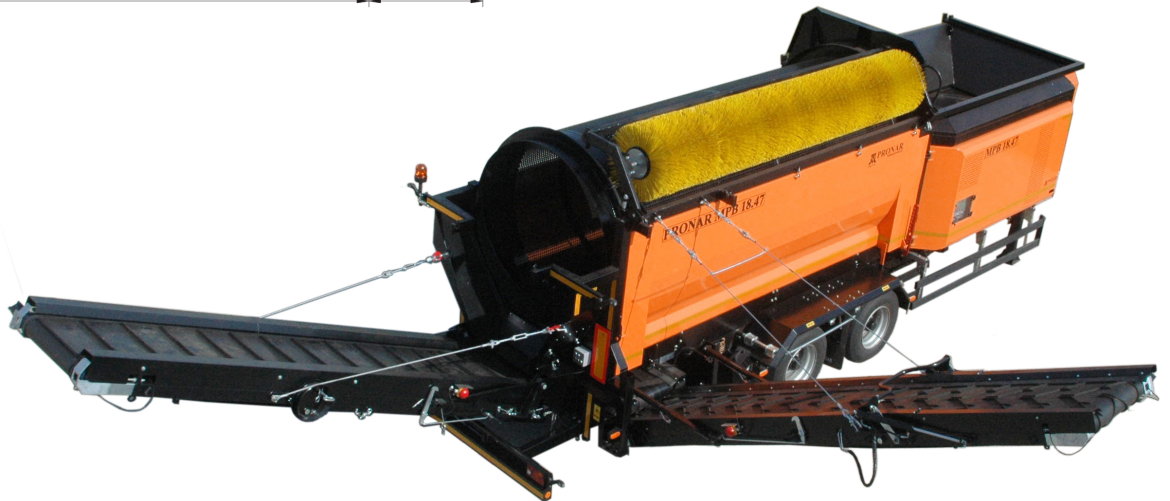

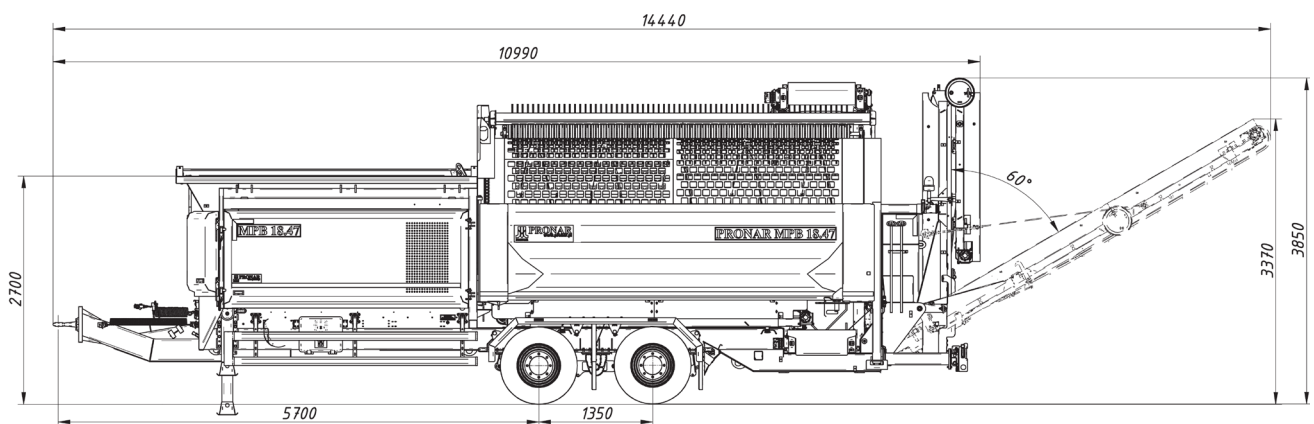

## MPB 18.47

Trommel dimensions (length/diameter) [mm]	4700/1800
Dimensions (length/width/height) [mm]	10990/2550/3850
Weight [kg]	~12800
Max trommel rotational speed [rpm]	23
Effective sieve surface [m <sup>2</sup> ]	22,1
Loading height [mm]	2700
In-Feed hopper capacity [m <sup>3</sup> ]	5

Engine

CAT 2.8l, 55 kW (75 HP),  
Stage V/Tier 4 Final;  
Deutz 2.9l, 55,4 kW (75 HP),  
Stage V/Tier 4 Final;  
ABB, 30 kW (41 HP);  
ABB, 45 kW (61 HP)
