

mobile trommel screens

MPB 20.72

The Pronar MPB 20.72 and MPB 20.72g trommel screens are designed to work in large installations. The 7.2 m long and 2 m diameter drum offers a very large screening area. This guarantees very good results when working with difficult material. The Pronar MPB 20.72 trommel screen in the wheeled version has been designed as a semi-trailer, which makes it easier to transport it with semi-truck. The tracked version, on the other hand, provides comfort in work that requires frequent movement of the machine around the yard.

KEY FEATURES & BENEFITS

- | designed with large projects in mind
- | large screening area
- | ease of transport
- | good cleaning of even difficult materials
- | ease of servicing
- | short set-up time and the „autostart“ function

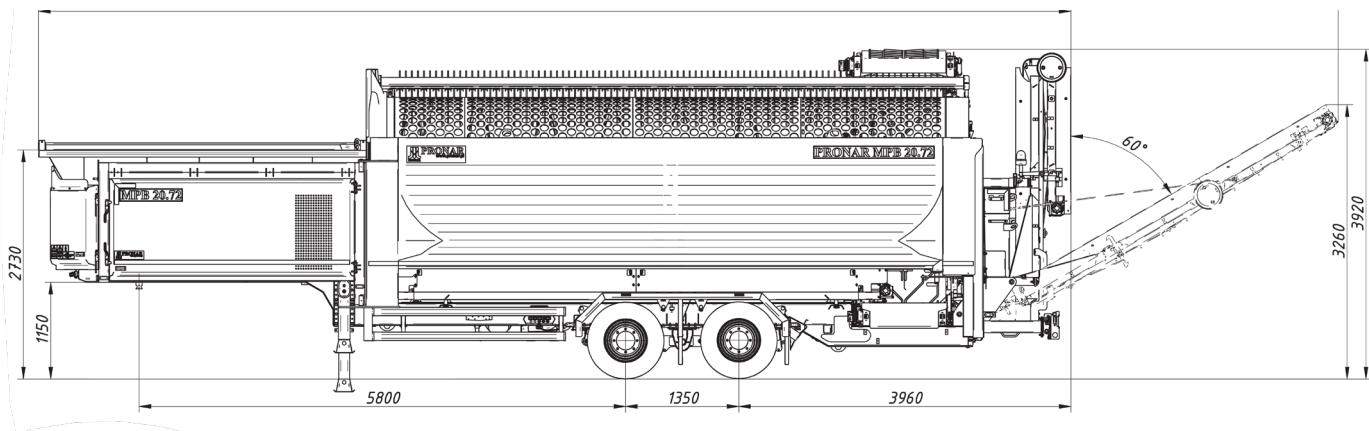

TECHNICAL DATA

MPB 20.72

Trommel dimensions (length/diameter) [mm]	7200/2000
Dimensions (length/width/height) [mm]	12310/2550/3920
Weight [kg]	~25000
Max trommel rotational speed [rpm]	23 (17 for electric engine)
Effective sieve surface [m ²]	40,6
Loading height [mm]	2730
In-Feed hopper capacity [m ³]	6
Engine	CAT 3.6l, 90 kW (122 HP) Stage V/Tier 4 Final; Deutz 3.6l 90 kW (122 HP), Stage V/Tier 4 Final; CAT 3.6l, 90 kW (122 HP), Stage 3A; ABB, 55 kW (75 HP)
